Subject: new job

I just want you to know that late last year I started working full time with the City of Cambridge Department of Human Services as the Children and Youth Planner. As you may know, Cambridge has an extensive network of out-of-school time providers that serve over 2500 kids and they need conceptual and analytical management in maintaining and expanding it. This is an exciting opportunity, one that returns me to educational project management and that furthers my dedication to performance management and organizational capacity building.

This has been a long and, at times, difficult job search, one that would have been much more difficult without your help. I appreciate your taking the time and the kind consideration you gave me during the search. I am of course available to provide the same help and support or to otherwise help you. I hope we will have an opportunity to work together or to otherwise collaborate on some exciting project.

Thank you again.

Best,

Mike George

Subject: Medicine Wheel/ No Man's Land

Hi Michael

I hope you are well on the mend! I wanted to follow up with you on our conversation from last fall. We are planning a big event for September. We hope to raise money to continue our youth employment program.

The theme of the event is that in Reclaiming this abandoned land young people have reclaimed their lives.

We want to offer back to the community the green space of No man's land and the young people as contributing members of our community.

Are you able to come to a planning meeting on March 19th?

Yours

Michael

Michael,

It was great that you and Eileen were able to attend the surprise party for Alyce last Friday. Eileen looked beautiful; she is quite stunning. Thanks also for arranging for the Mayor and Angela to be there and for him to say a few words. Michael, I thought his talk was as good, if not better, than any I have heard him give. It was a very touching moment; Alyce has remarked several times since that it made her feel very special. I appreciate your help in making it happen.

Patrick

Subject: Northeastern University: Urban Government and Politics (Tuesdays 5:15 - 7:45PM)
Attach: Urban Govt syllabus.docx

MJK,

As discussed, please see attached syllabus for the Urban Government class at Northeastern University.

The professor is Richard O'Bryant. Professor O'Bryant lives in Dorchester (*I believe Pope's Hill section of Dorchester*). Professor O'Bryant is the Director of the John D. O'Bryant African American Institute at Northeastern University.

Our first (*and only, so far*) guest lecturer was State Representative Marie St. Fleur. Representative St. Fleur was invited by Professor Bruce Wallin (*O'Bryant's colleague in the Political Science Department*). Representative St. Fleur spoke for 1/2 hr and took 5-6 questions (another 1/2 hr). Representative St. Fleur's audience was O'Bryant's graduate class and Bruce Wallin's undergraduate American Government Class.

During his last lecture, Professor O'Bryant informed the class that he is actively trying to recruit local elected officials to discuss their views on Urban Policy and Politics. O'Bryant stated he was in discussions with Councilor Sam Yoon and hoped to schedule him to meet with the class in the near future. Additionally, he stated that he would like to offer Councilor Michael Flaherty the same opportunity.

At the conclusion of the class, I approached Professor O'Bryant and detailed my concerns for the Administration's equal opportunity for academic discussion. Professor O'Bryant stated, that he would enthusiastically welcome the Mayor and/or any Administration official. Professor O'Bryant stated that "Mayor Menino has lectured in my class before, and he has always been a great, engaging guest."

The graduate class is small, only +/-20 students. I am the only student from Boston, but more than half appear to be new residents. I'm not sure, but judging from the comments O'Bryant has made and given the Poli-Sci collaboration on the St. Fleur appearance, I could envision, a greater audience (in excess of 50 students/residents) possibly some undergrads.

During my two (2) graduate classes with Professor O'Bryant, I have found him to be supportive of TMM and the administration's efforts to better the City of Boston.

In the attached syllabus you will find Professor O'Bryant's email and work phone number. I can assist in any scheduling/logistics if necessary. If you need any additional information, please do not hesitate to contact me.
